The Professors of the Medical Department of the Columbian College, in the District of Columbia, anxious to extend the benefits of regular Medical education to Students whose pecuniary means will not enable them to attend courses of public lectures, have adopted the following resolutions:—

Resolved, That this school be open to the admission of one student of the character contemplated, in the foregoing preamble, from each of the United States, and one from each of the territories, to attend all the lectures, without charge.

Resolved, That the senators of congress are hereby authorized to select one such student from their respective states, and the delegates of congress one such student from their respective territories, who shall be admitted to gratuitous attendance on the lectures, by exhibiting a certificate of selection from the senators or delegate, to the dean of this department. It is to be understood that said student shall pay five dollars on entering the school, as a matriculating fee, and should he graduate in this institution, a fee of twenty dollars will be required.
